

Create .CHD From .ISO Files

Windows

[ISO2CHD.bat](#)

```
for /r %%i in (*.iso) do chdman createdd -i "%%i" -o "%~ni.chd" >> log
```

Linux

[convertFromIsoToChd.sh](#)

```
#!/bin/bash

# Grab .iso file
for f in /*.iso
do
  name=${f%.iso} # Remove '.iso' from file name
  chdman createdd -i "$name.iso" -o "$name.chd" --force
done
```
