

Create .ISO From .CHD Files

Windows

[CHD2ISO.bat](#)

```
for %%i in (*.chd) do (  
  chdman extractcd -i "%%i" -o "%%~ni.cue" -ob "%%~ni.iso"  
  del "%%~ni.cue"  
) >> log
```

Linux

[convertFromChdTolso.sh](#)

```
#!/bin/bash  
  
# Grab .chd file  
for f in ./**/*.chd  
do  
  name=${f%.chd} # Remove '.chd' from file name  
  chdman extractcd -i "$name.chd" -o "$name.iso" --force  
done
```
