Specialty Treatments:

Hot Stone: Experience Massage Therapy like never before with this incredible treatment. Gentle use of warm smooth Basalt stones. The deep penetrating moist heat relaxes the muscles and expands the blood vessels, creating a sedative effect on the nervous system.

50 minutes - **\$110**

Cupping Massage - Through suction, the skin is gently drawn upwards by creating a vacuum in a cup over the target area of the skin. The cup can be left in place or moved along the skin. It is believed by some to help treat pain, deep scar tissues in the muscles and connective tissue, muscle knots, and swelling. The type of cupping we do does not leave large bruises but redness may occur. - **\$110**

Sugar Scrub & Massage: Experience rejuvenation as a blend of essential oils and sugar scrub are used to gently exfoliate the body. Following a shower, you will delight in a relaxing full body massage.

75 minutes - **\$145**

Sugar scrub & Botanical Mud Wrap: Experience rejuvenation as a sugar scrub is used to gently exfoliate the body. An ultra-hydrating mud treatment follows that relaxes your whole body. Botanical mud detoxifies your body while re-mineralizing and firming your skin.

50 minutes - **\$100**

A Treat for the Hands & Feet: Your whole body will thank you when you let us treat your feet to this incredible experience. First, we gently exfoliate with a lavender sugar scrub. Next, the Hands & Feet are treated to an intensive moisture mask. What follows is an extensive hand & foot massage that will be deeply relaxing, yet leave you relaxed and refreshed from head to toe.

50 minutes - **\$100**

Spa-style Facial: Gentle all-purpose cleansing, exfoliation, and moisturizing of the face, neck, and decollete. This is followed by massage of the face and scalp to leave you with a relaxed and refreshed appearance. 25 minutes - **\$50**

*Please note: we are not aestheticians. We do not do skin analysis, extractions, etc. This is for relaxational purposes only.

Back Refresher: A wonderful way to smooth those areas that are just out of reach. The back is cleansed and exfoliated with a scrub. A mud is then used to soothe and moisturize. This treatment will leave your back feeling silky soft and wonderfully relaxed. A massage is then done in the time allotted.

50 minutes - **\$90**

Head to Toe: Our most decadent treatment. Experience the ultimate in relaxation. To begin enjoy a full body exfoliation followed by a mud wrap. While you are in the warm cocoon notice your tensions melt away. To complete your pampering, a full body massage is done to ease tired muscles.
