

# Unzip All Files In Directory

## .zip Files

```
unzip "*.zip"
```

Alternative for systems that only have 7zip installed.

```
find /volume1/Emulation/JDownloader/PS2 -type f -iname '*.zip' -execdir 7z x {} ';' 
```

## .7z Files

Install 7zip first.

```
sudo apt install p7zip-full
```

```
7za -y x "*.7z"
```

### Unzip into individual directories

```
for archive in *.7z; do 7z x -o`basename \"$archive\" .7z` \"$archive"; done
```
